CLOSING OUT

FURNITURE SALE.

Having decided to quit business in Mt. Sterling, we must close out our entire stock before

THE 10th OF FEBRUARY.

Everything in the house will be marked in plain figures at less than manufacturer's cost. You may wonder why we sell for less than cost; but as we are going to locate in Winchester, Ky., and our time is short for closing out, we are compelled to sell at cost and less than cost to dispose of our goods, and besides we cannot afford to pack and pay freight. You will be the judge whether or not you want furniture. This is the opportunity of a lifetime.

Church Reception in Palmyra, Mo.

One of the most delightful and successful church receptions ever held in this city was given by the congregation of the First Christian Church in the pastor's and lecture room of their church on last Tuesday evening in honor of the pastor, Rev. W. A. Fite, and bride.

On this happy occasion were assembled not only the membership, but as guests nearly all the pastors and their wives of the different congregations in town.

After some time had been spent in introductions and pleasant conversation, the audience was called to order by Mr. B. F. Glahn, who presented Rev. Fite and wife two handsome rocking chairs, gifts of the membership as tokens of their love and appreciation. When appropriate responses had been made by both pastor and wife the audience repaired to the dining room in the basement of the church, where an elegant repast had been prepared by the ladies of the church, and to say that the refreshments were elegant would be putting it mildly. Delightful music was rendered by the Palmyra orchestra.

Bro. Fite has been pastor of this church for four months, but during that time he has done excellent work for the cause of right, and we are glad to say that he is being recognized, though young in years, as a power in the pulpit and an actor of no mean ability.

On Christmas day he was married to Mary Lindsey, daughter of Mr. and Mrs. C. H. Jones, of Mt. Sterling, Ky. His bride is one of Kentucky's fairest daughters, of sunny disposition and genial, kindly ways. Even in the short time she has been here she has endeared herself to those with whom she has mingled.

May their lives be bright and full of sunshine, and their work auspicious, crowned with good results in the cause of the Master.

M. L. WOOD, Palmyra, Mo.

Leased.

Wm. Schaefer, of Morehead, has leased the Mount County Messenger and has employed some one, name unknown to take charge of same. The Salt Lick Pentagraph, which Mr. Schaefer was to pilot over the troubled waters, was disabled on trial trip and has not been brought to harbor.

If you have rooms, dwellings or business property for rent, list same with T. F. ROGERS as he has quite a number of applicants, and his charges are reasonable. He will see to it people who want to rent to your one.

THE STORY OF OUR

Great Clearance Sale

Has been told by the press and the people. Not a soul has visited our store and wished more than ordinary BARGAINS has been disappointed. No matter how great their expectations our word has been fulfilled to the letter. When the papers, the red banners and hand-bills told the public that our magnificent stock would be thrown on the market regardless of value, the people showed their confidence by a quick response, and our sale has been an unparalleled success, but now comes the wind-up. After a sale such as we have had, there are bound to be broken lots and broken sizes. We must close them out, and now COMES A GREAT SACRIFICE! The odd sizes in Suits, the odd sizes in Overcoats, must go at WIND-UP PRICES.

Strike Now! Time is Fleeting and the End in Sight!

With the exception of the reason itself, a woman has a reason for everything.

If Banner Salve

doesn't cure your piles, your money will be returned. It is the most healing medicine.

F. C. Duerson, druggist.

You can't be happy unless you try to make others happy.

Chapped hands, cracked lips and roughness of the skin cured quickly by Banner Salve, the most healing ointment in the world.

F. C. Duerson, druggist.

Life's pleasures are not as numerous as you can afford to smother.

W. L. Yaney, Paducah, Ky., writes: "I had a severe case of kidney disease and three of the best physicians in Southern Kentucky treated me without success. I was induced to try Foley's Kidney Cure. The first bottle gave me immediate relief and three bottles cured me permanently. I gladly recommend this wonderful remedy. Take no substitute."

F. C. Duerson, druggist.

There is no surer guide to the general trend of a man's character than his food habits.

Frank Treatwell, Bennett, Ia., was troubled with kidney disease for two years. He writes: "I had taken several kinds of kidney remedies, but with little benefit. Finally I tried Foley's Kidney Cure and a one dollar bottle cured me."

F. C. Duerson, druggist.

Knife wounds heal quicker than those caused by a caustic tongue.

Child Worth Millions.

"My child is worth millions to me," says Mrs. Mary Bird, of Harrisburg, Pa., "yet I would have lost her by croup had I not purchased a bottle of One Minute Cough Cure. One Minute Cough Cure is sure cure for coughs, croup and throat and lung troubles. An absolutely safe cough cure which acts immediately. The youngest child can take it with entire safety. The little ones like the taste and remember how often it helped them. Every family should have a bottle of One Minute Cough Cure handy. At this season especially it may be needed suddenly."

A kind word is never spoken in vain. It has frequently saved a married man the cost of a new set of dishes.

A Profitable Investment.

"I was troubled for about seven years with my stomach and in bed half my time," says E. Demick, Souverville, Ind. "I spent about \$1,000 and never could get anything to help me until I tried Kodol Dyspepsia Cure. I have taken a few bottles and am an entirely well." You don't live by what you eat, but by what you digest and assimilate. If your stomach doesn't digest your food you are really starving. Kodol Dyspepsia Cure does the stomach's work by digesting the food. You don't have to diet. Eat all you want. Kodol Dyspepsia Cure cures all stomach troubles.

Beauty is only skin deep—and the same may be said of freckles.

For Pneumonia.

Dr. C. J. Bishop, Agnew, Mich., says: "I have used Foley's Honey and Tar in three very severe cases of pneumonia with good results in every case." Beware of substitutes.

F. C. Duerson, druggist.

A woman never tried to flirt with a married man who loves his wife.

La Grippe coughs often continue for months and sometimes lead to fatal results after the patient is supposed to have passed the danger point. Foley's Honey and Tar affords positive protection and security from these coughs.

F. C. Duerson, druggist.

THIS AND THAT.

The hay harvested in the United States in 1901 amounted to 51,000,000 tons.

In both the provinces of Ontario and Quebec the birth-rate is steadily decreasing.

From Dawson about 40,000 pelicans are exported annually to the great fur markets of New York and London.

Colored eyes never have blue eyes. Their eyes are always dark brown, brown, brownish, yellow or black.

There are 19 parliaments in the British empire—ten in British North America, seven in Australia and two in South Africa.

A herd of 60 full-blooded buffaloes, owned by James Phillips, of Fort Pierre, S. D., is the largest in the state. The animals are partially domesticated, but increase very slowly.

Wyoming has 35,000,000 acres of good grazing lands. There are about 1,000,000 cattle and 3,000,000 sheep in the state. Between the cattlemen and sheepmen exists a feud that not infrequently leads to murder. Sheep you may or may not know, feed in no close order that when a flock has fed over a range not a spear of grass remains. Cattle browse at random, and leave behind more than they eat, so that the range may provide sustenance for two or three herds, one following the other.

An interesting coin has just been sold in Germany. It is one of the few coins in the history of the world which can be accused of having a humorous side to it. In 1676 the Danes descended on the port of Hamburg, but their attack on the famous Hanse town proved unsuccessful. The inhabitants of the town struck a medal to commemorate the occasion. The legend on the coin was as follows: "The king of Denmark has been to Hamburg. If thou wouldst know what he achieved, look on the other side." It is needless to add that "the other side" is a blank.

A DUST METER.

Ingenious Apparatus for Estimating the Amount of Dust in the Air.

An ingenious apparatus for estimating the amount of dust in the air has just been devised by Mr. Karl Arctis. It consists, says the Boston Transcript, of a glass tube loosely packed with cotton wool and connected with an aspirating apparatus on the principle of the law of flow. After the tube and the wood have been perfectly dried and sealed, a small volume of the air to be tested is drawn through, carrying with it its quota of dust and moisture. The tube is then allowed to stand over strong sulphuric acid for 24 hours, or until the moisture is attracted from the wool. The tube and its contents are now weighed again and the increase in weight represents the amount of dust in the given volume of air. A great many experiments have been tried with the new instrument, and among the results are the following, which show in milligrams the amount of dust per cubic meter found in the air in the places mentioned: Laboratory, 1.1; schoolroom, 10.0; horse hair factory, 17.0; saw factory, 17.0 and 15.0; woolen factory (picking room), 7.0; ditto (cutting room), 20.0; flour mill, 23.0 and 28.0; iron foundry (10 to 20 workmen), 28.0; ditto (not previously used), 1.5; ditto (few workmen), 12.0; ditto (during interval), 8.0; mill factory, 72.0; ditto (before grinding), 16.0; cement works (during work), 224.0; ditto (in an interval), 136.0.

THE ALPHABET OF BANKING.

How to Make Headway in a Financial Institution.

With a good general education, to begin, a head for organization, and a natural courtesy of demeanor, there is no reason why the office boy of today may not be the bank president of 20 years hence; if he will only use his opportunities, application and hard work will carry him to the top. Outside the details of his own office, he will have to study and invest securities, investments, the standing of customers, letters of credit, and foreign business methods; to read all he can on banks, banking and all else that pertains to that particular department of finance. This may sound formidable; but, taken in conjunction with his daily work, and considering the amount of leisure every bank president has, he will not find it so much midnight oil to keep his knowledge in advance of his position. Know more than your position demands. As your knowledge rises, your position will follow.—William H. Porter, in Success.

Good resolutions don't cost any thing but they are hard to keep.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that can be cured by Hall's Catarrh Cure. Send for circulars, free.

S. Jackson, Danville, Ill., writes: "My daughter had a severe attack of la grippe and a terrible cough settled on her lungs. We tried a great many remedies without giving relief. She tried Foley's Honey and Tar which cured her. She has never been troubled with a cough since."

F. C. Duerson, druggist.

Those to whom labor is unknown cannot enjoy the exquisite delight of a well-earned rest.

Don't Live Together.

Constipation and health never go together. DeWitt's Little, Early Risers promote easy action of the bowels without distress. "I have been troubled with constipation nine years," says J. O. Greene, Depue, Ind. "I have tried many remedies but Little Early Risers give best results."

DISCOURAGING AN ACTRESS.

How Emma Kama Got the Bitter of a French Manager.

Returning to Paris, she at last closed an engagement with the Comique. She was to sing "Traviata," but after she had prepared for her debut she was told that she could not be allowed to make her first appearance in such an important role. Then she studied Bizet's "Les Pecheurs Des Perles." But she was told: "We cannot trust this in the hands of a debutante." She was at sea until she learned that a French composer was using his influence with the directors to prevent her debut and in favor of another singer.

In the midst of this distressing situation she received an offer from the opera. What should she do? Here was an offer that would at once start her on her career. Yet she was bound by a contract to Parvay of the Comique. She asked him for a release, but the singer for whom intrigue had secured a debut had utterly failed and the young American was told that now she was to have her chance. The opening of the exposition was approaching and the manager thought that by having the only American singer would be a feather in his cap. She insisted that he wished to be released. He was obstinate. Finally, at a meeting of the directors, she walked into the cabinet and said: "Now I want to know if you will let me off."

"We are paying you for not singing," was the reply.

"I am not going to leave the room until you have sent for my contract and torn it up before my eyes."

"This is not the time. Come back tomorrow."

"I am not coming back, for I am not going until you have done what I've asked you to do."

As a result of her stand—American pluck versus French perversity—her contract was sent for and torn up in the directors' meeting. The next morning Parvay read the announcement that she was engaged for the opera, and he was furious—Gustav Kobbe, in Woman's Home Companion.

A woman's club is soon to be opened on a large scale in New York.

Risking Life

To make a living! And we stand and stare up at the man in the clouds, wondering that any man can be so foolish.

But what of the business man, who has barely time to snatch a hasty meal, and gulps down a lunch of pie and milk in a few minutes? He too, is risking his life to make a living. Life is sustained by food properly digested and assimilated. The reason why the stomach and irregular meals is "weak" stomach, and a "weak" stomach means a weak man. When the stomach is "weak" the food eaten is not properly digested and cannot be perfectly assimilated, so that there is a daily loss of nutrition, which in time will result in physical collapse.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It restores the assimilation of all the nutritive values of the food eaten, and so builds up the body into sound health and strength.

Mr. Neil Nelson, the celebrated Irish Comedian and Musical Artist, writes: "I was engaged in an engagement of a musical comedy company, and was a bad luck, that dreaded disease called indigestion. I had tried everything, but it did not last week, while playing at a certain place, I was taken ill, and I was unable to perform. I tried Dr. Pierce's Golden Medical Discovery. I tried it, and, thank God, with good results."

Dr. Pierce's Common Sense Medical Advice, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

MACHINE-MADE CHICKENS.

Has That Are Made to Lay 200 Eggs a Year

The old-fashioned Plymouth Rock hen considered she was faithfully doing her duty if she laid about the dozen eggs a year, but the modern machine-made hen is said to keep her head well up to 200. In those old-fashioned times she enjoyed the honor of motherhood and was considered of much greater importance than being an egg-producing machine. This was all changed with the introduction of the incubator system, which not only cuts off several days in the period of hatching, but also the business in a generally more satisfactory manner than did the mother hen.

Besides this there is the necessity of system all around, which leads to the ultimate production of the manufactured chicken.

In one of the latest poultry-producing places of the west, says the Galveston Daily News, a large plant is recently been installed which is probably the most perfect in the world. The entire plant, in fact, is but one vast machine, each floor of which is devoted to the chicken-producing business. On the top floor are located the incubators, in which the unhatched eggs are placed on a tray and subjected to heat of about 90 degrees. Beneath the tray, which are hatched about 1,000 chickens a day, are the brooders, and here in a temperature of about 90 degrees the chicks remain for 21 days. After being born one day feeding commences, the bare being milk, ground corn and condensed. For the first week they are fed five times a day, the amount of food being gradually increased, although given less often, their diet being gradually changed to include coarser grains. By the rapid forcing method of feeding adopted it takes only a week or two to bring the chicken to a weight of two pounds.

The chicken is then taken to the floor below, where a very limited space is allowed for the running around and where a number of cramping machines are located. The crowded pens on this floor are the first and last glimpse the modern chicken catches of the world into which it is born, for here it begins to fatten rapidly, as the cramping machines force an enormous quantity of food down its throat. It takes from two to four weeks to bring the weight of these chickens up to about six pounds, at which time they are exactly in shape for market.

They are then removed to the floor below, where are the guillotine and plucking machines. Here they are disposed of more rapidly than in any of the foregoing processes, the killing and dressing being carried out with the greatest speed possible, so that the fowl may be placed in the packing barrel as nearly warm as possible and reach the market well perfectly fresh.

THE GREATEST Remodeling Clearance Sale

IN THE HISTORY OF MT. STERLING WILL BEGIN AT THE

Busy Bee Cash Store

On January 10 and Continue 22 Days.

We have decided to make some improvements in our store that, when completed, we will have the most up-to-date store-room in the grand old Commonwealth of Kentucky.

And to do this it is necessary for us to close out a large portion of our immense stock to make room for the builders.

When we decided to make this improvement in our store-room, we decided at the same time to make this

Great Slaughter Sale!

You may have witnessed slaughter sales in this city before, but none like this one will be. We mean to close out the greater portion of our present stock, and to do this we have driven our knife to the quick.

In every department, regardless of value, they must go, and go quick. When it rains soup, set out your bowl.

In our Men's, Boys' and Youths' Clothing Department

Former Prices Are Entirely Lost Sight of!

Our manager for this department has certainly done his work well, and has cut the very heart-strings out of old prices.

Suits that were - - \$5.00, are now - - - \$2.00

Suits that were - - 7.50, are now - - - 3.48

Suits that were - - 10.00, are now - - - 5.98

Suits that were \$12, \$15 and \$18, are now 7.48

Boys' and Youths' Suits are almost thrown in, to make up your bundle. Men's Pants cut half in two, and some of them have been marked down to one-third their former price. Overcoats for Men, Boys and Youths are cut half their former price.

All Prices on Ladies', Misses' and Children's Cloaks and Wraps cut one-half,

And some of them are being sold at one-fourth their former price. If you need a WRAP this is a picnic for you. You can afford to buy one for next season. We are almost giving them away.

Dress Coats, Domestic, Table Linens and other Piece Goods

Have felt the hem-edge of our slaughter knife. They have all felt the sting, and at the low prices being marked on them now, we are bound to clear our shelves and counters.

Best Brands of Calicos, 3 1/2c to 4c. Good Brown Cotton, yard wide, 4 1/2c worth 10c. Our Sea Island Cotton, full yard wide 4 cents.

Bring your wagons and fill them up. You may not have such another good opportunity.

All Shoes for Men Women and Children

Will be included in this great mark-down, remodeling sale. If you ever expect to need any more Shoes get them now while this sale lasts. Profit by our loss and supply your store. Our stock is complete now, but a day or two sale at our present marked down slaughter prices is bound to make a hole in it. Get in line and be first served.

We have just received a large shipment of fine ingrain and Brussels Carpets, that have been put in this sale with all the other Carpets, Lace Curtains and Mattings. We have also about 50 pair of remnant Lace Curtains of about 1 to 2 pair of a kind, that we will be offered in this sale at about one-half their actual cost.

Also about 25 pair Curtains, consisting of Chenille, Dinem, Rope and Tapestry that will be closed out in this sale.

If you need Carpets and Curtains why not buy them at our give-away, mark-down prices, and help us to make room for the remodelers. A few days' waiting on this stock will be dangerous, if you need them. They are bound to go in this sale.

AGAIN WE SAY

Never did the good citizens of Mt. Sterling and Montgomery county ever witness such a tremendous sale as we are going to have. We are compelled to make room for our carpenters. We have no other way to do it but to sell the goods, and we have made up our minds to make room this way.

They must go at whatever price they bring. Nothing in the entire house, has been reserved. They must all go if possible. Don't wait; get in line and follow the crowd.

Remember the sale begins Jan. 10. Ends Feb. 1

No other days but ones mentioned will the marked-down, remodeling prices go, but they all go on the days mentioned.

Remember this sale is for SPOT CASH, as our object in this sale is to make room for our carpenters, reduce our winter stock, and make room for our enormous Spring Stock which is daily coming in.

Thanking you for past favors, and hoping you will help us and help yourselves at the same time, by attending our sale, we are very respectfully,
